

Since 1980, Universal Electronics, Inc. has provided high reliability full-service electronics contract manufacturing to the security, defense, and military industries. For the last three decades UEI’s quality reputation has been built upon a mission of delivering customer satisfaction through continuous improvement.

With two facilities located in the upper Midwest, we have been advancing manufacturing technologies and delivering on our objective of being the leading provider of electronics contract manufacturing and services. This commitment to excellence coupled with engineering and manufacturing teams allows UEI to hit the ground running regardless of the stage of your product’s life-cycle.

High Reliability and Quality Management Systems:

- ISO9001:2008 and ISO13485:2003 in Whitewater, WI; ISO9001:2008 in East Troy, WI
- International Traffic in Arms Regulations (ITAR)
- Statistical process control
- Full-lot traceability for products and process non-conformances
- Comprehensive risk management for manufactured products
- Recognized manufacturer to domestic and international safety standards
- IPC-A-610 “Latest Revision”, class I, II and III
- J-STD-001 “Latest Revision”

UEI is committed to meeting the demands of complex products in these demanding industry segments that have a long product life and high mix/low volumes.

"DEDICATED TO CUSTOMER SATISFACTION"

SECURITY / DEFENSE

Test:

- Test strategy development
- Manufacturing defect analysis
- In-circuit and combinational test systems
- Flying Probe
- Functional test equipment
- X-ray inspection
- Automated optical inspection

Manufacturing:

- Higher-level assembly
- Multiple manufacturing facilities
- SMT and PTH PCB manufacturing
- FAST Turn PCBA Prototypes and NPI programs
- Unique work-order-driven manufacturing system
- Component traceability
- Comprehensive materials management
- Customer teams
- Focus factories
- Configure-to-order manufacturing
- Repair depot services
- Device history file
- QSR compliant

Program Management:

- Senior program managers with proven leadership for bringing products to market
- Customer-focused cross functional teams including Test, Project, and Process Engineering, Quality, Materials, and Administrative
- Quarterly business reviews
- Strong export compliance program
